

# Model G

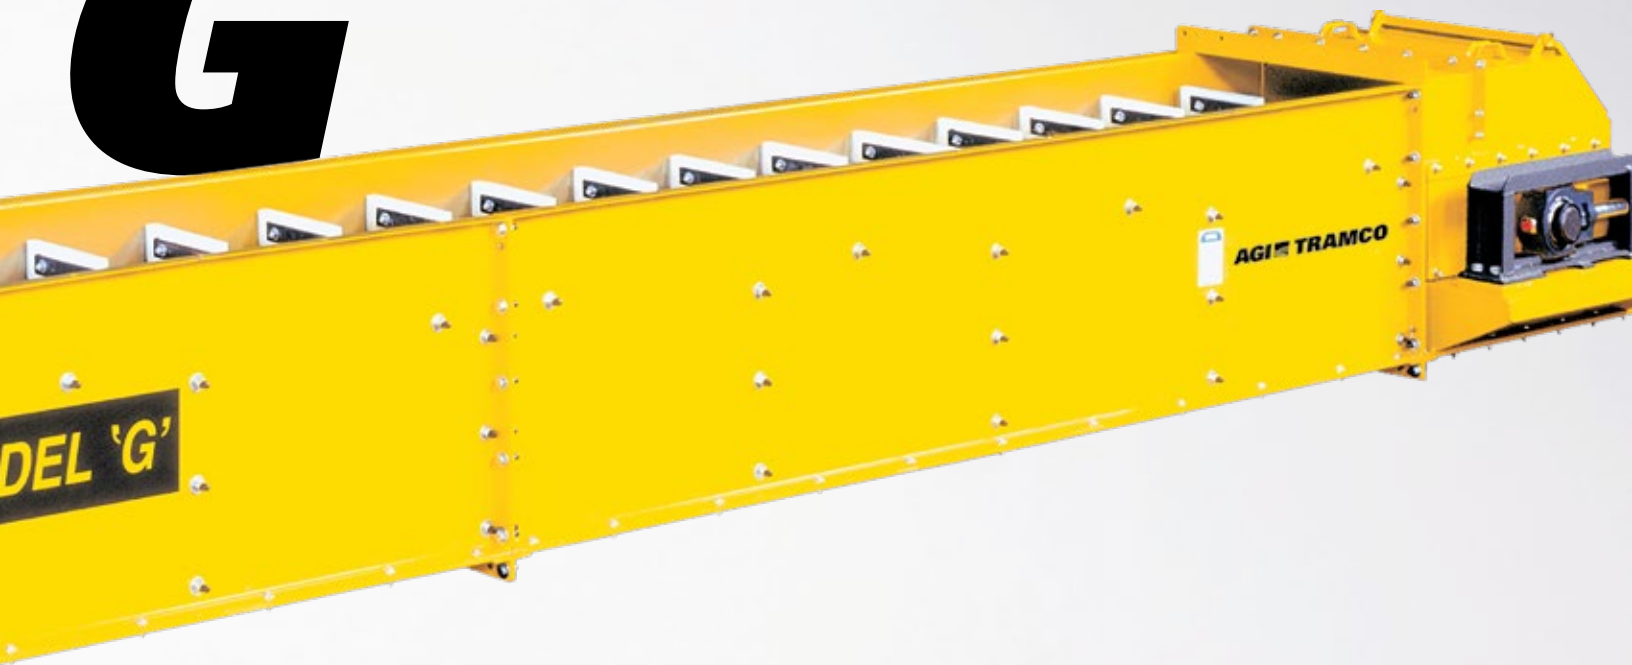

## En-Masse Conveyor

# ***MODEL***

# G

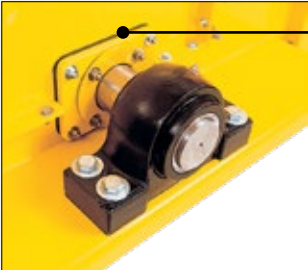

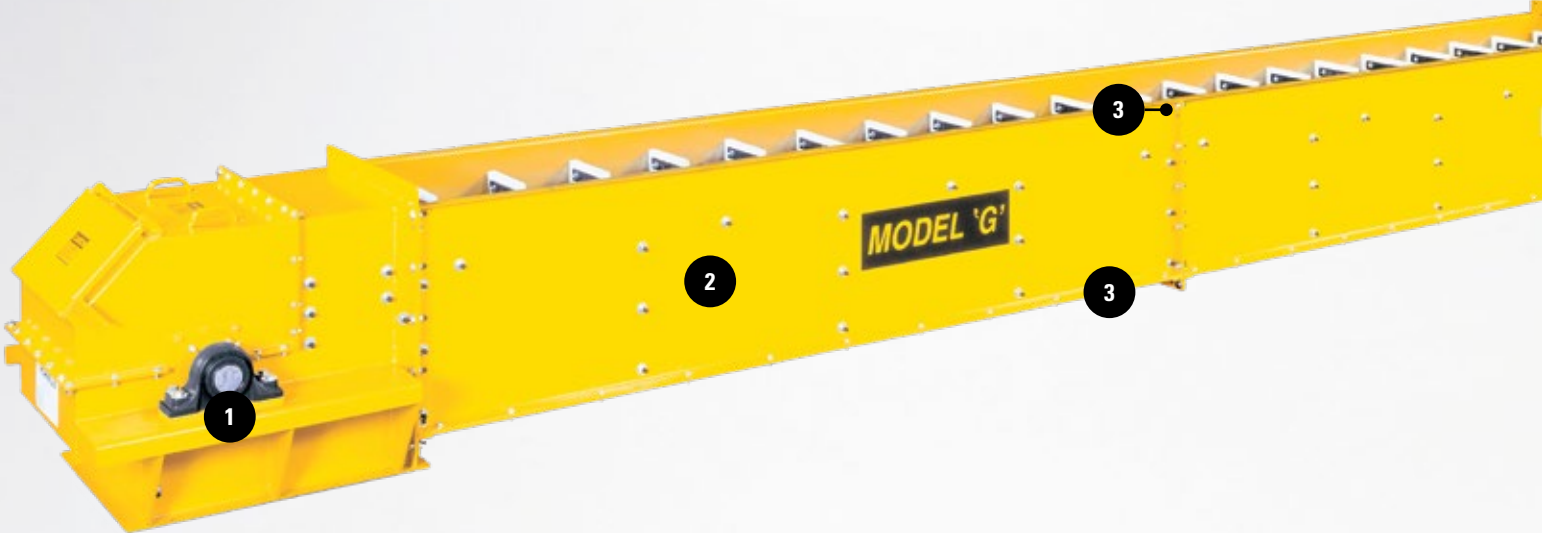

THE HIGHEST PERFORMANCE  
AT THE BEST VALUE!

Designed & Engineered for Versatility.

# EXCEPTIONAL QUALITY, LASTING PERFORMANCE

The TRAMCO Model G Conveyor is the heavy-duty conveyor designed to handle the most severe applications for many years of trouble-free service. Robot welded jig-fitted parts combined with totally bolted construction ensures precise fit and interchangeability of components. This “total quality process” means you get more value when you choose TRAMCO.

**1 Heavy-duty long life pillow block roller bearing**  
Packing gland shaft seal

**2**  
3 mil Powder Coat Finish

**4 Heavy-duty center pull takeup frame**  
Packing gland shaft seal

## EXTENDED LIFE LINERS & BOTTOMS

Abrasion resistant materials are available for replaceable liners and bottom plates. Liners are designed for close tolerance with smooth faced internals and fit. There is minimal thermal expansion. Abrasion resistant materials from 200 to 500 Brinell (18 to 51 Rockwell C) with thickness from 3/16 gauge (5 mm) to 3/4 inches (19mm) are available depending upon the application requirements.

**\*NOTE**

Covers have been removed for illustrative purposes only. Do not operate conveyor unless all covers, guards, etc. are in place.

# HEAD AND TAIL DESIGNED TO BE MAINTENANCE FRIENDLY... ALL WEAR PARTS ARE EASY TO REPLACE

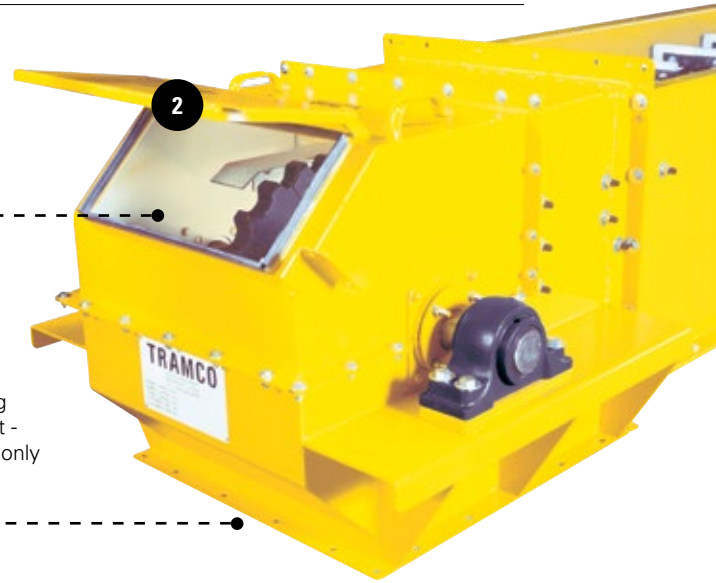

STANDARD HEAD WITHOUT COVER

**1** Hinged relief door for conveyor protection

**2** Easily replaceable head carryback (or chain stripper)

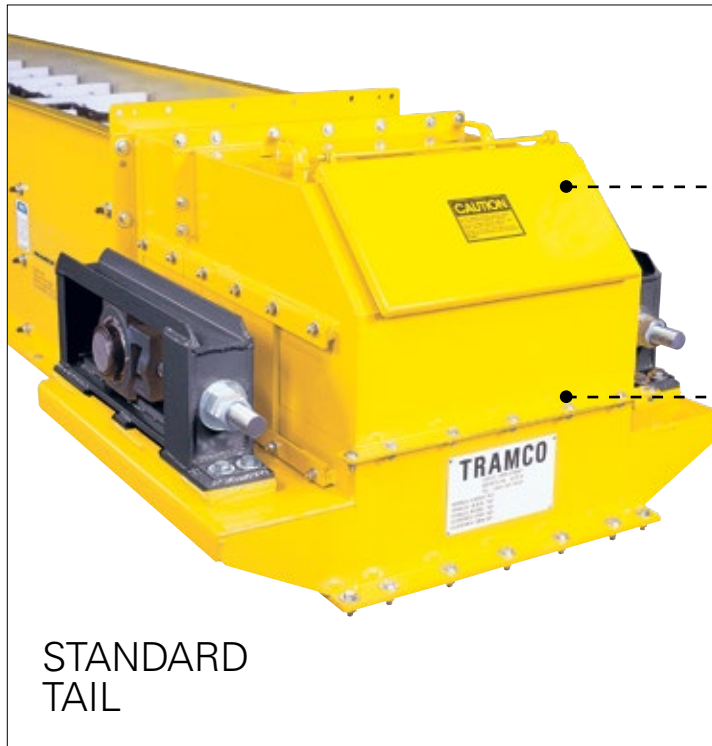

**3** Double-life working tooth split sprocket - with 6" pitch chain only

STANDARD HEAD

## BYPASS FEED INLET

with replaceable abrasion resistant liners

STANDARD TAIL

STANDARD HEAD WITHOUT COVER

**1** Double-life working tooth split sprocket - with 6" pitch chain only

# THE WORLD'S MOST COMPLETE LINE OF CHAIN & ENCLOSED BELT CONVEYORS

TRAMCO conveyors and elevators, *The Quiet Ones* (italicize this) have become the standard of the industry. They are designed, engineered and built for hard work and long life. All models feature non-metallic flights for lower noise levels, minimal maintenance and downtime.

**1**

## **TRAMCO BUCKET ELEVATOR**

THE WORK HORSE

Centrifugal Discharge design is used for the bulk handling of free-flowing fine and loose materials with small to medium size lumps. Built-to-last for the toughest requirements.

**2**

## **TRAMCO JETBELT™**

AIR SUPPORTED BELT CONVEYOR

An efficient system requiring less horsepower than other systems. Used for dry bulk handling requirements in a variety of products.

**3**

## **TRAMCO MODEL RB**

Designed for self-cleaning and quiet operation with a u-shaped trough for handling soft stock or materials that are easily crumbled or broken.

**4**

## **TRAMCO MODEL G**

Built standard with 10-gauge construction to accommodate large capacities of free-flowing materials. Provides years of trouble-free service under extreme applications.

**5**

## **TRAMCO BULK-FLO™**

The heavy-duty chain conveyor designed specifically for processing applications such as; wet and sticky, varying sizes and densities and abrasive or corrosive materials.

**Tramco is an AGI Brand.**

AGI is a leading provider of equipment solutions for agriculture bulk commodities including seed, fertilizer, grain, and feed systems with a growing platform in providing equipment and solutions for food processing facilities. AGI has manufacturing facilities in Canada, the United States, the United Kingdom, Brazil, South Africa and Italy and distributes its products globally.
